Orders require finish specification: Marine Bronze(-08), Black(-N), Matt Black(-NMATT), Luxury(-F). Drill patterns and full dimension specifications available upon request.

Use Biondan *EZ Safety Plaques* for big savings in your building projects, with reduced installation time, and safer handling.

Mitigate the risk of a costly accident — avoid damaging and dangerous operations while saving on costs through initial construction with EZ Safety Plaques bronze frames from Biondan.

Benefits of the EZ Safety Plaque System:

- **Just-in-Time Inscriptions:** can be completed at the time of entombment;
- **Efficient Installation:** Safe and easy installation can be done by a single grounds-person;
- **Reduce Risks:** Add inscriptions without the need to remove Crypt or Niche shutters; and
- **Quality you can count on:** with Biondan's 60 years of reliable production consistency and uniform appearance.

If there is ever a mistake on an inscription — the insert is easy to replace, saving you from the risk and cost of inscription errors associated with sandblasting crypt fronts.

EZ Safety Plaques come treated with our proprietary protective coating, formulated to withstand corrosive atmospheres and environments for a lasting finish.

Installation is Easy:

1. **Pre-Drill:** prepare your Crypt and Niche Fronts with our product specific pre-drilling guides;
2. **Install the Seat:** bolt the seating bracket to the shutter front;
3. **Sandblast the Insert:** inscribe your inserts using your local sandblaster;
4. **Mount the Insert:** fasten the insert into the frames and mount on to the seat; and
5. **Secure the Frame:** secure the frame into place with our security screws.

When a second inscription is required, groundskeepers can easily pull out the insert to take it to the inscriber.

- When the inserts are prepared, just remove the security screws and lower the frame to attach the insert to the EZ Safety Plaque.

It's that easy.

Optional Value Add: *PhotoPlaques from Biondan*

Add service in capturing a meaningful representation for the deceased, a canvas for sharing their stories, with the lasting quality of photo ceramics. Artists are available to assist in creating Photo Plaque art for your customers.

To learn about the Photo Plaque program contact your sales representative for more information.
